## **B.2.2 Alphabetical list of standardized enumeration types**

This clause lists the standardized enumeration types that are used in the oic.r.mode, oic.r.operational.state, oic.r.consumable Resources, and semantic tag ("tag-func-desc") defined in Clause 7.11.2.2 of the ISO/IEC XXX.

- aborted
  - An internal device, communication or security error
- active
  - Unit is active
- airDry
  - unit is air drying
- armedAway
  - unit is armed for away
- armedInstant
  - unit is armed instantly
- armedMaximum
  - unit is armed at maximum level
- armedNightStay
  - unit is armed in night stay
- armedStay
  - unit is armed in stay mode
- aroma
  - unit is armed in aroma mode
- artificialintelligence
  - unit is in artificial intelligence mode
- auto
  - unit is in auto mode or state
- boiling
  - unit is in boiling state or mode
- brewing
  - unit is in brewing state or mode
- cancelled
  - the job was cancelled either by the remote client or by the user
- charging
  - unit is in battery charging state
- checkingTurbidity
  - unit is in checking turbidity state
- changeCondition
  - unit is in change condition state based on a result of checking turbidity
- circulating

- unit is in circulating model or state
- cleaning
  - unit is in cleaning mode or state
- clothes
  - unit is in clothes mode
- completed
  - job finished successfully
- convertible
  - unit is for a convertible part (among compartments of refrigerator)
  - It can be a single fridge or a single freezer, and a user can configure to use them as desired.
- convBake
  - unit is in convection bake mode
- convRoast
  - unit is in convection roast mode
- cool
  - unit is in cooling mode or state
- coolDown
  - unit is in cool down state
- delicate
  - unit is in delicate mode or state
- disabled
  - unit's current operational mode is disabled
- down
  - unit is unavailable
- dual
  - unit is in dual mode
- dry
  - unit is dry mode
- enabled
  - unit's current operational mode is enabled
- energySaving
  - unit is in energy saving mode or state
- express
  - unit is in express mode or state
- extended
  - unit is in extended mode or state
- fan
  - unit is in fan mode or state

- fast
  - unit is in fast mode or state
- filterMaterial
  - filter material that is used by a device
- focused
  - unit is in focused mode or state
- freezer
  - unit is for a freezer part (among compartments of a refrigerator)
- fridge
  - unit is for a fridge part (among compartments of a refrigerator)
- freezePrevent
  - unit is in freeze prevent mode or state
- freezePreventPending
  - unit is pending state in freeze prevent mode
- freezePreventPause
  - unit is paused state in freeze prevent mode
- grinding
  - unit is in grinding state or mode
- heating
  - unit is in heating mode or state
- heavy
  - unit is in heavy mode or state
- idle
  - new jobs can start processing without waiting
- ink
  - generic ink cartridge for a device
- inkBlack
  - black ink cartridge for a device
- inkCyan
  - cyan ink cartridge for a device
- inkMagenta
  - magenta ink cartridge for a device
- inkTricolour
  - tricolour ink cartridge for a device
- inkYellow
  - yellow ink cartridge for a device
- keepwarm
  - unit is in keep warm state or mode

- main
  - unit is for a main device
- nightDry
  - unit is in night dry mode or state
- normal
  - unit is in a normal operational state
- notsupported
  - ability to set a specific operational mode by a client is not supported
- pause
  - unit is paused (by user)
- pending
  - job initiated, engine is preparing
- pendingHeld
  - job is not a candidate for processing for any number of reasons, will return to pending state if reasons are solved.
- permapress
  - unit is in permanent press mode or state
- preWash
  - unit is pre wash mode
- processing
  - processing the job
- pure
  - unit is in pure mode or state
- quick
  - unit is in quick mode or state
- quiet
  - unit is in quiet mode
- ringing
  - unit is in ringing state to indicate alarm, emergency, caution, and so on
- rinse
  - unit is rinse mode
- sectored
  - unit is in sectored mode or state
- setOption
  - unit is in status while being set for the device's option(s)
- shake
  - unit is in shake mode or state
- shoesDry
  - unit is in shoes dry mode or state

- silent
  - unit is in silent mode or state
- sleep
  - unit is in sleep mode or state
- smart
  - unit is in smart mode or state
- soaking
  - unit is soaking state
- spot
  - unit is in spot mode or state
- spray
  - unit is in spray mode
- steam
  - unit is in steam mode or state
- steamSoftening
  - unit is in steam softening mode or state
  - soften the fabric using 100% pure water and no chemical
- stop
  - unit is stopped by user
- stopped
  - error condition occurred
- spin
  - unit is in spin mode or state
- subDevice
  - unit is for sub-device making up part of a main device
- testing
  - calibrating, preparing the unit
- toner
  - generic toner cartridge for a device
- tonerBlack
  - black toner cartridge for a device
- tonerCyan
  - cyan toner cartridge for a device
- tonerMagenta
  - magenta toner cartridge for a device
- tonerYellow
  - yellow toner cartridge for a device
- wakeUp

- unit is in wake up state just after sleep mode
- warm
  - unit is in warm mode
- wash
  - unit is in wash mode
- waterproofing
  - unit is in waterproofing mode or state
- wet
  - unit is in wet mode or state
- wind
  - unit is in wind mode
- wrinklePrevent
  - unit is in winkle prevent mode
- zigzag
  - unit is in zigzag mode or state
